Stimulated Recall Methodology In Second Language Research

Susan M Gass Alison Mackey

This book represents another step toward the improvement of methodology in second language research. Its topic is the application of a particular introspective method, stimulated recall, within studies of second language L2 acquisition. Man kann IS im Blick auf Aristoteles postulieren. She is also interested in second language research methodologies and willing to. Stimulated Recall Methodology in Applied Linguistics and L2 Research Using a stimulated recall method to access test-takers cognitive.
